Color change

The image shows two side-by-side screenshots of the Weverse mobile application interface, demonstrating color changes across various UI elements.

Top Row:

- Left Screenshot:** Displays a promotional banner for "NewJeans Fan Meeting" with a message about "Bunnies Camp 2024 Tokyo Dome" merchandise. The text and button outlines are primarily black and white.
- Right Screenshot:** The same promotional banner, but the text and button outlines are now colored green, matching the Weverse logo.

Middle Row:

- Left Screenshot:** Shows the "My communities" section with a placeholder message and a large circular button containing a plus sign.
- Right Screenshot:** The same "My communities" section, but the text and button outlines are now colored green.

Bottom Row:

- Left Screenshot:** Shows a notification for a Weverse Direct Message (DM) with a count of 99, and a "Meet your artist" section featuring artist profiles for BAEKHO, KYUHYUN, and Weki Meki.
- Right Screenshot:** The same notification and artist profiles, but the text and button outlines are now colored green.

Bottom Navigation Bar:

- Icons for Home, Shop, DM, Notifications, and More, all with green outlines.
